SOLUTIONS FOR HIP PAIN

Free community event

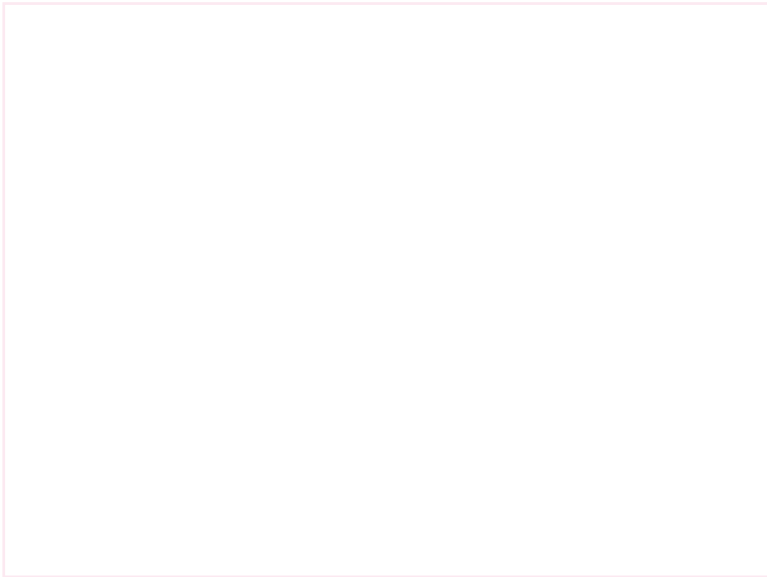

Thursday, Sept. 14

5:00 p.m. to 6:30 p.m.

ProHealthCare.org/JointReplacement

ProHealth Care has achieved Advanced Total Hip and Total Knee Replacement certification from the Joint Commission, in collaboration with the Academy of Orthopaedic Surgeons.

**LEAVE HIP
PAIN BEHIND.**

IS SAME-DAY JOINT REPLACEMENT SURGERY FOR YOU?

If chronic joint pain keeps you from the activities you enjoy, and other treatments have not been successful, minimally invasive surgery might provide the relief you seek. To help you learn about hip replacement procedures and how to make a quick recovery, ProHealth Orthopedic Care is holding a free community event. An orthopedic surgeon will host the program, and you will be able to meet other members of our joint replacement team and get valuable information about treatment options.

SOLUTIONS FOR HIP PAIN Thursday, Sept. 14 from 5:00 p.m. to 6:30 p.m.

Registration is required at ProHealthCare.org/JointReplacement.

Mick Kelly, MD
Orthopedic surgeon

Wisconsin Brewing Company Park
Upper level of the ProHealth Pavilion
1011 Blue Ribbon Circle N, Oconomowoc

Arrive as early as 4:30 p.m. to check in, visit interactive booths and participate in screenings before the presentation begins.

Attend this free community event to learn about hip replacement options and meet members of the ProHealth Orthopedic Care team.

A panel will be available to answer questions after the presentation. It will include the surgeon, a patient, an anesthesiologist, a physical therapist and the program's nurse navigator.

GET HOME SOONER. RECOVER FASTER.

ProHealth Orthopedic Care offers an expert team of surgeons who perform hip and knee replacement procedures. They use advanced navigation procedures for enhanced precision and better outcomes.

Minimally invasive options, including anterior hip replacements, allow you to heal faster so you can get beyond your pain. In most cases, you will return home the same day.

After surgery, physical or occupational therapy may be needed. Our team of skilled therapists will help get you up and moving fast. If you require additional rehabilitation once you return home, ProHealth Care's Rehabilitation Services are available throughout the community. Early morning and evening hours make it easy to get the support you need.

If you have been considering joint replacement surgery, register to attend the event to learn more about the available options and what to expect as a patient.

Visit ProHealthCare.org/JointReplacement to learn about our orthopedic surgery program and view videos. Call **262-928-2745** to learn more about our surgical team
